SKU#: EQ-NMRP-1  
MSRP: \$395 US

[Download Product Sheet](#)

- Manual movement
- Custom fit to each ZGR
- 2" casters

The ErgoQuest Non-Motorized Mobile Recliner Platform (EQ-NMRP-1) gives manual mobility to any recliner in our line of zero-gravity recliners. Each platform is custom-sized to fit each recliner make and model. All platforms are independent of the chair; the recliner simply rests in place on the platform and can be removed from the platform at any time. The platform lifts the chair about 2" above the floor.
