[Download Product Sheet](#)

- Wood frame
- Articulating headrest
- Cervical roll
- Manual recline
- Leather color options

The PC-6 is a wood frame zero-gravity recliner with a built-in lumbar curve and an extra wide legrest to provide maximum comfort. The Wedge-shaped, adjustable headrest cushion provides comfort for the head and neck. The adjustable headrest feature allows positioning for the optimum angle to maximize neck support while reading or working on the computer. The exclusive guide rail system provides position control and a smooth recline.
