- Wireless control
- 16 memory pre-sets
- Table height/mon. tilt

ErgoQuest™ Programmable Infrared Remote Control (EQ-PIRC-2) has 16 memory positions and consists of an IR-receiver and IR-transmitter and represents a wireless alternative to the standard desk handsets. Table height can be adjusted from a distance. Channel set-up ensures that it can be used in open-plan offices as well. When the EQ-BIRC-1 is connected with the motor-control it automatically adjusts itself to it and is ready for operation immediately. Black finish.
