The Model 700 provides a workstation solution to Professionals who prefer or need to work from a reclining, zero-stress position. The Model 700 has two height adjustable tabletops that straddle a recliner and can support up to four 24" flat panel monitors, and securely position them at angles up to 55 degrees. The rear tabletop supports the heavy duty version of the ErgoQuest Motorized Monitor Positioning System (EQ-MMPS-2) which can tilt the monitor array from -30 degrees to positive 55 degrees, raise the monitors 20" and extend them forward 18" toward the user. Users have complete control over the monitor array's horizontal, vertical, and angle position using the tilting monitor platform and the EQ-MMPS-2. Frame-mounted articulating, adjustable racks and platforms provide completely adjustable support for essential peripherals, illuminators, phones, dictation handsets etc. Task and dimmable ambient up-lighting are included and adjustable by remote control. Every essential tool can be positioned to be accessible from a reclined position. Rear tabletop measures 32"x84". Front tabletop measures 24"x84". Black powder-coated frame with black laminate tabletop.
